Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 June 2000.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 14, 19, 20 are rejected under 35 U.S.C. 102(e) as being Krivoshein et al by U.S. Patent Number 5,980,078.

Re Claims 14, fig. 11B teaches a CPU (a processor) and ROM (a memory), in particular, fig. 15, in step 2222, the process also includes searching a table for the device configuration (a set of routines...perform device configuration); step 2210 teaches the Controller/Mux performing network configuration for a device wherein the configurable Fieldbus device is assigned an IP address (a communication stack) (See col. 23, lines 42 +) wherein since each device is addressable, the processor can establish communication with the Fieldbus device without interrupting communication between the Fieldbus device and other devices.

Re Claim 19, refer to Claim 14, wherein all configuration changing and modifying routines are elements of the Fieldbus standard.

Re Claim 20, refer to Claim 14, wherein fig. 11C teaches the Display I/O.

Allowable Subject Matter

3. Claims 1-13, 21-29 are allowed.

Claims 15-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

Independent Claims 1 and 21, Prior art fails to teach the processor to initiate any of the first or second set of routines when the mode switch is set to the first mode to thereby configure the network and adapted to initiate any of the second set of routines but not any of the first set when the mode is set to the second mode.

In combination with Claims 14 and 15, prior art fails to teach the communication routine includes a first portion that determines the VCR entries available for used in the Fieldbus device and not being used by other devices, a second portion that selects one of the useable VCR entries and a third portion that established a communication link with the Fieldbus device using the selected VCR entry.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Lee whose telephone number is 703-305-1500. The examiner can normally be reached on Monday to Friday from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chau Nguyen can be reached on 703-308-5340. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
